

March 14, 1975

are few that have hired a private contractor, in some instances. It is removed in Douglas County and in Sarpy County by the County Highway Department. It is not removed. It is pushed aside. I am not implying that they have to haul it away. The bill says that they shall do with those streets in a sanitary and improvement districts in the same manner that they do with their own county streets and roads.

SENATOR CAVANAUGH: OK. They will not get any additional compensation for doing this from the districts?

SENATOR DICKINSON: No sir.

SENATOR CAVANAUGH: OK. And Douglas County supports it?

SENATOR DICKINSON: Douglas County's Board of Commissioners including their Commissioner Cavanaugh prior to his retirement from that Board of last January 1, unanimously approved this. Yes.

SENATOR CAVANAUGH: He did. I never knew him to make a mistake before. At any rate, I don't think that the county should assume this obligation without additional compensation. I think that the way sanitary improvement districts are set up, the people there should provide for their services there the same as the city should and I don't understand Douglas County wishing to incur an additional obligation, work obligation, which is going to create additional expense for the county without any additional remuneration. It just doesn't make any sense that they would be encouraging acquiring a new obligation with no additional compensation. If somebody could explain that, it might make the bill make a little bit more sense. Otherwise, I think the bill ought to die.

PRESIDENT: Senator Lewis.

SENATOR F. LEWIS: Mr. Chairman, I rise to oppose the kill motion. I do think the bill needs some refinement and I have talked to Senator Dickinson about it. I believe it is fair to suggest that that road tax money can be returned to those areas on a population basis and can be used for that purpose. I have a friendly amendment that I plan to discuss with Senator Dickinson. I had talked to him in generalities about it and that is that I'd like to make sure that no county local tax funds were involved with the plowing of the roads. In Sarpy County, there is a couple of mills but I have no objection to the use of road tax money which is returned to the people on the basis of population to use that for maintenance and the cleaning of their streets. I do object, if it involves local county taxes from other parts to do that kind of a job. We have talked about that same kind of thing and I don't think Senator Dickinson is in disagreement with that so I would urge you not to indefinitely postpone the bill. I think it can be made workable with a couple of slight amendments.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: Two things, Mr. President, and first, I would like to remind Senator Cavanaugh that he stands as
